This book has multiple translations for its picture captions and all of the photos are beautifully done. What I love about this book is that it shows the more rustic side of Japanese interior design and its more modern and contemporary side. Highly recommend! 2 of 2 people found the following review helpful. Beautiful Book By Barbara C. Gorgeous book with lavish, large photographs and great colors - perfect! 0 of 0 people found the following review helpful. Great book for home decor ideas. By Heather Great book for ideas about Japanese style home decoration. I live in SoCal, and this is such a great way to live.
