I have not seen the featured rooms in other books. They are often sumptuous and a delight to see. The minimal text is presented in several languages. Sometimes the text is a bit too minimal in that you would like to know more about specific pieces in the rooms. Overall it is a wonderful visual experience.0 of 0 people found the following review helpful. Interesting but not fabulous.By Trish PaulA little too much of modern and edgy for me. I like traditional and historic Paris, I guess.Still a beautiful book. However, the same photos or apartments appear in other books.So, bummer.0 of 0 people found the following review helpful.
