Kemp Since visiting France over 10 years ago I had wanted a book on Monet which would show not only his paintings but his home--this book does both. It is a lovely book just the right length too. As always, has the very best price too! 1 of 3 people found the following review helpful. Living with Monet By Dilip Dahanukar Monet was the father of modern art. It was his "Impressions, Sunrise" which started Impressionism style of painting. I have a Monet calendar [...] on the wall and the book brought him to life.

Looking at Monet's art in the context of his lifestyle, this book is suitable for artists, designers, gardeners, and lifestyle gurus alike.
