Bonnie Trust Dahan, Shaun Sullivan : Living with the Seasons before purchasing it in order to gage whether or not it would be worth my time, and all praised Living with the Seasons:

6 of 7 people found the following review helpful. UndecidedBy Linda W. When I bought "A Gracious Welcome," I was one of the "customers who also bought..." "Living with the Seasons" is a beautifully photographed book; a coffee table book, not a "how-to" book. The rooms, the furniture, the suggestions of cutting flowers from your own garden are truly lovely, but I have neither the rooms, the furniture, nor the cutting garden. The overall Asian decor is breathtakingly beautiful, but not really attainable. At least not by me. I have looked through the book many times for the sheer joy of it, but alas, I cannot use it as an example of what I can do with my home.0 of 1 people found the following review helpful. I love this bookBy Julie C. FlaughterI enjoy both interior design and natural living; this book was a win-win! I use it like a coffee-table book, pulling it out for guests and my own seasonal reference. Great pictures, wonderful ideas, calming text. It's one of my favorites.

The team behind the best-selling Garden House has created another inviting guide to bringing the outdoors in. Living with the Seasons features countless ways to bring the signs of the season into every home by drawing on the colors of nature and engaging the senses. In spring, for example, a bedroom gets a makeover from lime green linens and a display of fresh-cut violet hyacinths. In autumn, a home office is reinvented with vibrant fall squash displayed in glass cylinders like modern art. Here are scores of ideas for changing the look of a room with just a few easy and inexpensive touches. Throughout, Shaun Sullivan's radiant photographs capture the rich textures and colors of organic materials, while Bonnie Trust Dahan's inspirational and instructive text makes decorating with seasonal flowers,

plants, and fabrics a natural instinct. Whether studio apartment or hilltop mansion, any home will find rejuvenating style with a little help from Mother Nature and the creative ideas found here.
