Richard Ball, Paul Cox, Mary Smith : Low Tech: Fast Furniture for Next to Nothing before purchasing it in order to gage whether or not it would be worth my time, and all praised Low Tech: Fast Furniture for Next to Nothing:

0 of 0 people found the following review helpful. This book was quite exciting to meBy TrbAlthough the book literally fell apart in my hands, it still has a wonderful lot of information. Everything was pictured in such a way that it will be easy to make anything in the book that interests you even if you have little to no crafty skills.I ordered this book since my son just bought his first house, but has no money left over for furniture. He is very excited about the chance to read this book. I haven't made any of the furniture as of yet, but once I get together with my son, I am sure we will do at least one or two items from this book. I can't wait!0 of 0 people found the following review helpful. A good read for the beginning DIY-erBy An Honest ReviewLoving this book, it was worth the wait, I'm getting a lot of ideas for my personal use and I'll be updating some of my techniques with the ones in this book.1 of 1 people found the following review helpful. Best idea book I've ever found!By Helen BehdI am a purveyor of these kinds of ideas and inexpensive, green, recyclable inspiration! I bought his book 6 years ago and the ideas are chic, ageless, utilitarian to the Nth degree and oh so timely for these nomadic chaotic times. A easy quick book that explains simple back to basics simple utilitarian, simple chic and low cost to no cost if you refurbish and by the way, doing it with creative

finesse!
