4 of 4 people found the following review helpful. Great Idea-BookBy A CustomerThis is a great book if you're looking for ideas on how to decorate your room. It has plenty of rooms and styles to choose from. I re-did our master bedroom, using a look I saw in here, and it looks fantastic!"Make It Yours" isn't going to give you tips and techniques on how to do each little thing in the room, but it gives you a good foundation of how to achieve the overall look.0 of 0 people found the following review helpful. Thanks!By CustomerI have so many ideas thanks to this book on how to

redecorate our house! Not even sure where to start1 of 1 people found the following review helpful. Decorating Tips Photos for Fans of the ShowBy Virginia AllainThese spin off books from the television decorating shows give the viewer more depth than the show allows or can disappoint. Here I had trouble with the book's format. Some pages crowded five photos together making it hard to see the details. For project how-to, the one-page instructions seem skimpy for ambitious projects like slipcovering a chair or applying fabric to the wall. The 14 pages devoted to a chronological guide of the show's episodes seems pretty self-indulgent.Despite those criticisms, there are good ideas to be found here. I liked the project of tracing words onto semisheer fabric for a pillow cover. I'd recommend borrowing this book from the library, unless you are a hardcore fan of the show.

Tours more than 20 Trading Spaces locations across the U.S. to inspire readers.Readers will learn the latest decorating/design techniques showcased on Trading Spaces, while exploring alternative ideas to achieve the custom look they want.Shows readers how to add personal touches to everyday items.Unique Trading Spaces Toolbox sidebars will help readers build the attitudes and skills necessary for successfully transforming blah into beautiful.

From Publishers WeeklyThe cast of the popular Discovery Network television series Trading Spaces struts their stuff between the covers of this latest installment of the show's bestselling collection of home-decorating books. Though this volume claims to show readers how to "discover and express" their personal style, the discovery portion of this book is woefully brief. A daffy 17-question "Stylin' Quiz" is all the guidance readers get before the authors rush forward into slapdash presentation of apartment makeovers (whether one prefers "dinner and dancing," "burgers and good friends" or "moonlight and jasmine" on a date, for instance, is supposed to indicate one's preferences in interior decor). The book does contain an impressive number of color photographs and instructions for dozens of do-it-yourself projects, such dressing up pillows and building folding screens (though the directions are rarely step by step). But the book's design and organization feel as wild and kinetic as, well, an over-energized television show. Avid TV watchers may enjoy such flashy quick-cuts; serious would-be decorators will be better off looking elsewhere. Copyright 2003 Reed Business Information, Inc.
