Edward R. Turner : Making Japanese-Style Lamps and Lanterns before purchasing it in order to gage whether or not it would be worth my time, and all praised Making Japanese-Style Lamps and Lanterns:

2 of 2 people found the following review helpful. 'All I Expected...By "Coupe-06"...and more. Japan's influence has come full circle in so many positively historical and cultural ways. This book bears out the evidence of that influence as a contribution to the world's hunger and need for spiritual peace, tranquility, calming environs. The inspiration I received from the designs of these lanterns, did so much service to me, as a kind of "jumping-off" point, to help me develop my own interpretations, shows that power of influence continues. The illustrations and instructions were nearly elegant in their simplicity, and further enhanced the grace of a few of my personal favorites. The design principles of balance, symmetry and continuity used in these lanterns draw so much from nature and the elements, fundamentally, that there should be no surprise as to the reverence and spirituality the Japanese people and culture use to honor their connection to the eternal, to excellence, and to light. At least for me. Thank you for having made it available. 1 of 1 people found the following review helpful. needs a rewrite By Timothy O. Sharon would give it a 10 star if the

measurements in the text and drawings matched , but is a good book as long as this point is remembered1 of 1 people found the following review helpful. Just what I was looking forBy robert russoI had always wanted to make a Japanese lantern and liked the plans in the book . Liked using rice paper for the sides . It sits on a table in my living room . The dimensions were not easy to follow .

Nothing is quite as beautiful as the Japanese lamp or lantern. Edward Turner gives both novice and experienced woodworkers the ability to create remarkable lighting devices including bedside, overhead, freestanding, and outdoor lamps. All designs come with detailed instructions and rich color photographs. Projects are rated, with something for every level of ability.
