**L.H. Bailey : Manual of Gardening** before purchasing it in order to gage whether or not it would be worth my time, and all praised Manual of Gardening:

0 of 0 people found the following review helpful. Manual of GardeningBy Linda J. ReppellThis book was requested for Christmas by my daughter who is staring the Master Gardener program this month. She said that the older gardening books give very valuable, proven information that do you not find in modern gardening books. Sometimes older is better!0 of 0 people found the following review helpful. goodBy jerseyboythe product is good service is also good.iiiiiiiiiiiiii

Manual of Gardening is a classic gardening guide by L.H. Bailey. It has been my desire to reconstruct the two books, "Garden-Making" and "Practical Garden-Book"; but inasmuch as these books have found a constituency in their present form, it has seemed best to let them stand as they are and to continue their publication as long as the demand maintains itself, and to prepare a new work on gardening. This new work I now offer as "A Manual of Gardening." It is a combination and revision of the main parts of the other two books, together with much new material and the results of the experience of ten added years.
