I would still buy it again just for the information but not as a Manual.0 of 1 people found the following review helpful. Marijuana home growers ManualBy Sheri ShavlikMarijuana Home growers manual book is okay, but didn't really make a whole lot sense from what i was reading0 of 0 people found the following review helpful. GREAT

BOOKBy joey smithThis is a great little book and give me everything I needed although I must add that I bought the original UK hard back version which truly is a manual rather than a paperback guide for growing marijuana. I do believe the original UK book is available from the original publisher5...

With Billy McCanns unique cultivation method, marijuana plants mature in just six weeks. This innovative technique allows indoor gardeners to grow as many as 50 plants in a small cupboard, yielding over a pound of prime bud. Here McCann details his method, using clear, step-by-step instructions supplemented by over 90 color photographs and essential growing tips that ensure high production and healthy plants. A special section addresses drug testing and how to beat it.
