Martyn Lawrence Bullard : Martyn Lawrence Bullard: Design and Decoration before purchasing it in order to gage whether or not it would be worth my time, and all praised Martyn Lawrence Bullard: Design and Decoration:

1 of 1 people found the following review helpful. Not my thingBy Jenny GThis is essentially a picture book with the designer sharing some of his favorite projects. Each chapter has a one page intro providing the background for the project. I quickly scanned the intro and then flipped through the photos. Only a few times did a photo inspire me enough to read the related text for it. I read through the book in this manner in less than 30 minutes. The projects vary from homes to various public spaces.While I found all the projects impressive, there were a couple I thought were just ugly. There was very little to find for inspiration.3 of 3 people found the following review helpful. You can't put the book downBy KimmyI own both of Martyns design books. He will absolutely blow you away not only on his creativity and passion that is shown through his projects but also on his travels from where he finds unique pieces for

every different client of his. You don't have to love interior design to love his books. Martyn Lawrence Bullard is unbelievably gifted. 1 of 1 people found the following review helpful. A must have book By Shawn This book is thoughtfully written and features the amazing talent of one of the premier decorators. The homes featured are drop dead gorgeous and inspiring!

In his second book, Martyn Lawrence Bullard demonstrates how to bring a sense of luxury and glamour into spaces designed for comfort and modern living. As evidenced by the success of *Live, Love, Decorate*, Martyn Lawrence Bullard is beloved for his ability to mix a broad range of styles in eclectic, sophisticated, yet always comfortable interiors. His trademark attention to detail, adventurous use of color and texture, and references to history are hallmarks of his style. Known for his commitment to quality, he travels the globe to source the world's most beautiful objects. For this all-new selection of design projects, Bullard continues to draw upon these inspiration-filled experiences as well as his penchant for studying and collecting both vintage decorative arts and pedigreed antiques. This peek into Bullard's newest cache of homes is inspiring in its mix of styles from exotic chic to luxuriant modern and will appeal to designers and home owners with an eye for bold interiors. Included are a Connecticut country estate, a Balinese-inspired house in Malibu, Tommy Hilfiger's pop art-filled beach house in Miami, and the Chateau Gtsch in Switzerland, once home to Queen Victoria and now a chic boutique hotel.
