Hammer This book has many old tried and true things about Masonry and Concrete but does not address the new polymers, grouts, and other new products. I suggest you might want to review it's contents before purchasing. 1 of 1 people found the following review helpful. Just what I neededBy mgI love this book. It has great step by step directions and lots of good ideas. We have some diy projects and this book will help us with those.

Illustrated techniques to install, repair, replace, maintain, and improve patios, drives, steps, walkways, walls, and more. Clever ideas will inspire capable masons, while novices appreciate the easy-to-follow project format. Detailed photos and how-to illustrations accompany every project. Step-by-step format provides basics for beginners and reassurance on complex projects for more experienced DIYers. Updated photos and detailed illustrations explain techniques. Lists time, materials, tools, and skills required for each project.
