**Roy Treloar : Master Basic Plumbing And Central Heating (Teach Yourself)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Master Basic Plumbing And Central Heating (Teach Yourself):

This guide to the basics of plumbing and central heating is designed for complete amateurs, and written by one of the most experienced plumbing tutors in the country. Whether you are attempting projects such as installing a new bathroom or plumbing in a new dishwasher, or just need to understand enough to do essential repairs and fixes, this is the book for you. It includes step-by-step guides to sorting out the most common plumbing problems, and comprehensive coverage of the key tasks, all based on a straightforward introduction to the layout of your house and water system. In addition, it has plenty of illustrations, a full glossary, a whole chapter on how and who to call for help, a guide to the necessary toolkit and a list of the top ten plumbing emergencies.

"Covers everything from guttering to drains and everything in between. Excellent" RP - reviewer  
About the Author  
Roy Treloar is a former plumber, qualified electrical and heating engineer and full-time tutor and course manager at the Colchester Institute. He taught plumbing for over 20 years, and is the author of the leading textbooks for trainees.
