n/a : Miller House Garden before purchasing it in order to gage whether or not it would be worth my time, and all praised Miller House Garden:

A quintessential expression of American modernism, Miller House and Garden-created in 1952 by design geniuses Eero Saarinen, Alexander Girard, Dan Kiley, and Kevin Roche-integrates home and landscape in a compelling composition of forms and spaces, honoring historical precedents without forgoing innovation. Part of Assouline's renowned memoir series, Miller House and Garden shares not only the aspirations of the Miller family but also the

spirit of an era.
