McMansion AntithesisBy Brandon SkinnerMade me feel like a glutton after buying an 1200 sq. foot condo... what a waste of space! An excellent book showing you don't need an 8,000 square foot mansion to live comfortably. The book is also great for anyone interested in minimalism interior design as many of the homes don't allow for much clutter or adornment.

As the success of MINI HOUSE proved, bigger is not necessarily better, certainly not where your home is concerned. MINI HOUSE NOW demonstrates this point, showcasing dozens of homes that ingeniously make the most out of a small amount of space. For anyone living in or building smallscale home, this is the perfect source of inspiration.
