Herb L. Gustafson : Miniature Bonsai before purchasing it in order to gage whether or not it would be worth my time, and all praised Miniature Bonsai:

0 of 0 people found the following review helpful. Five StarsBy Customerexcellent book with easy to read instructions and clear photos. Lots of good ideas.0 of 0 people found the following review helpful. Five StarsBy guitarman504great book for learning about miniature bonsai. he explains the tools, pots, plants, and techniques very well0 of 0 people found the following review helpful. Five StarsBy robert gardnerlove this book as I am working to develop sohin type bonsai

Perfect for the novice, miniature bonsai can be formed from tiny seedlings found in the yard or at a park. Unlike their larger relatives, these palm-size trees can be potted, shaped, and pruned in only an hour or two. They're easy to

manage and transport, and require little space. Find everything you need to enter the magical realm of miniature bonsai, including required tools and equipment, design, and training techniques. See how to select an appropriate container, decide on the best style for a particular tree, and properly display it. All care and maintenance concerns are covered.
