our yard that I forget some of the basic maintenance needs of the garden. That is the reason I find this book to be invaluable. I have finally learned to trim the roses when the forsythia blooms, and trim the lilacs after their bloom has finished, but there are many tasks that are firmly fixed in my mind, and I love being able to just pick up this book and be reassured that either I've done what I need to do or that I won't be forgetting something that hadn't yet occurred to me. 0 of 0 people found the following review helpful. Great book! By m_hurlbut Month-by-month gardening is for anyone who wants to garden. I love that you don't have to start at the front of the book. If you buy this in May, you start reading the book from the May section. You can flip through as the seasons change. The person who wrote this book is a genius for coming up with a month-to month style book. This is totally appropriate for a gardening book, and especially so if you live in Illinois (or any other state in which they have a book like this for). This is a read as you need kind of book, but a must have for sure! 0 of 0 people found the following review helpful. Perfect for the new Gardener By M. Leroy I love month by month books. This is a great resource for a new gardener. Explains exactly what you need to do each month for each type of plant.

The Month-By-Month series is the perfect companion to take the guesswork out of gardening. With this book, you'll know what to do each month to have gardening success all year. Written by authors in your state, the information is tailored to the issues that affect your garden the most. When is the best time to plant trees and shrubs? Should I fertilize my lawn now? Is it time to prune my roses? What should I be doing in my garden this month? You'll find the answers to these questions and much more inside. This easy-to-use book highlights each of the ten major plant categories using a monthly format. It guides you through each month of the year, telling you exactly what your garden needs. It is like having an expert in the garden with you all year long. Valuable hints are located throughout the book, and beautiful photographs will inspire you. Written just for gardeners where you live, you can be confident that the information is right for you-and your garden will show it.

About the Author Fizzell has more than 40 years of hands-on horticultural experience. Fizzell has been featured often on television and radio and in leading trade journals, and has become a celebrated guest speaker at industry seminars and horticultural associations throughout the Midwest. Fizzell was the horticultural advisor for the University of Illinois Cooperative Extension Service for nearly 35 years. In 1991, he founded James A. Fizzell and Associates, Ltd., which provides services to professional horticulturists, arborists, municipalities, sports turf managers, media, and other plant experts needing specialized help. Fizzell attended Pasadena California City College and California State Polytechnic College and received his B.S. in Floriculture and his M.S. in Horticulture from the University of Illinois.
