Mike Miller : Month-By-Month Gardening in Kansas before purchasing it in order to gauge whether or not it would be worth my time, and all praised Month-By-Month Gardening in Kansas:

8 of 8 people found the following review helpful. Good info, but awkwardly organized By Cupcake The information seemed pretty thorough, but it's organized from Jan - Dec FOR EACH TYPE OF PLANT. So you don't look up January and get a rundown of everything you should be doing that month; instead, you have to look up January over and over again, in separate chapters for trees, flowers, perennials, veg, etc. Unless you only grow one type of plant, it's a pain in the rear. Hopefully future editions will be organized by month, with subheadings for type of plant. If so, I'll definitely buy a copy; but I sent this one back. 1 of 1 people found the following review helpful. good buy By William

MuggyA good publication and a good value for any mid-west plains gardener. Perhaps a future revision and provide changes relevant to the plant zoning changes recently determined0 of 1 people found the following review helpful.
good resourceBy skilletI haven't had a chance to digest the contents yet. As I looked through it I know it will be a good resource for me

Never garden alone! The Month-By-Month series is the perfect companion to take the guesswork out of gardening. With this book, you'll know what to do each month to have gardening success all year. Written by authors in your state, the information is tailored to the issues that affect your garden the most.

About the AuthorMike Miller has more than 35 years experience as an interior and outdoor landscape designer after being educated at University of California (Santa Barbara) and San Diego State. Past stints include the horticultural staff at Missouri Botanical Garden (teaching evening classes for 30-plus years for the adult education and master gardener programs), a faculty member at St. Louis Community College at Meramec, and a co-founder of a predatory insect store. Miller is a Missouri State-licensed pesticide applicator for ornamental plants, lawn/turf and aquatic environments and was also a garden center general manager with a Missouri State Nurseryman certification. Mike's media and speaking engagements include being the host (since 1994) of the year-round weekly KMOX / CBS Radio Garden Hotline and podcasts. The audience is at all gardening skill levels and interests ranging from one houseplant to an entire landscape. Additionally, Mike has spoken at University of Illinois seminars, Missouri Department of Natural Resources, and participated in numerous citizen and community advisory boards. Miller is the author of five garden books published by Cool Springs Press including Missouri Gardener's Guide and Missouri Month-by-Month Gardening. He's written numerous articles featured in the St. Louis Post Dispatch and Fine Gardening magazine, and maintains his website at www.mikemillerdesigns.com. A native of St. Louis, Mike and his wife Tracy Ann make their home in the Christy Park neighborhood. There, Mike entertains family, friends, and neighbors with ever-changing landscape concepts and plants, growing just about every type of plant that can be grown.
