Melinda Myers : Month-By-Month Gardening in Nebraska before purchasing it in order to gauge whether or not it would be worth my time, and all praised Month-By-Month Gardening in Nebraska:

1 of 1 people found the following review helpful. New GardenerBy Kindle CustomerWe moved to NE and tried to start our own garden without knowing when to plant. Having grown up farther south, all of what I thought I knew was wrong. This book was very helpful in providing a starting point of what to plant when, even providing a list of vegetables to plant by seed outside or inside. As a beginning gardener with not much experience, I found it very helpful and a nice reminder of what to do when. There are sections of the book on annuals, bulbs, herbs, vegetables, lawns, perennials, roses, shrubs, trees, and vines, so it really covers a broad range of items you would grow and things

to do / not do each month based on the type. 6 of 6 people found the following review helpful. not helpful! By scientific mom I picked up this book thinking it would have suggestions on what to plant in Nebraska. In reality it is set up more like the Farmer's Almanac. It simply tells you what to do each month, like "prune trees" and "spray for insects" and "plant bulbs". Many of the things it says to do are regarding plants I don't know anything about - and was hoping this book was going to teach me! This is basically a schedule of reminders for the expert gardener who already knows the what, why, and how of gardening in Nebraska. 7 of 7 people found the following review helpful. Disappointed By DJSF Don't waste your time or your money. The title is misleading. There were no lists of any planting suggestions, pictures or any ideas of year round color. The Eastern and Western sides of the state have very different planting conditions and these were not addressed either. Information was so basic that it was mostly common sense.

Never garden alone! The Month-By-Month series is the perfect companion to take the guesswork out of gardening. With this book, you'll know what to do each month to have gardening success all year. Written by authors in your state, the information is tailored to the issues that affect your garden the most.

About the Author Nationally known gardening expert, TV and radio host, author, and columnist Melinda Myers has more than thirty years of horticulture experience. She has written over twenty gardening books, including *Can't Miss Small Space Gardening*, *The Garden Book for Wisconsin*, *Minnesota Gardener's Guide*, *Month-by-Month Gardening in Wisconsin*, the *Perfect Lawn Midwest* series, as well as the *Midwest Gardener's Handbook* and *Michigan Getting Started Garden Guide*. In addition to authoring books, Myers hosts the nationally syndicated *Melinda's Garden Moment* segments that air on over 115 TV and radio stations throughout the United States. She is also the instructor for *The Great Course How to Grow DVD* series. She also has a column in *Gardening How-to* magazine and *Wisconsin Gardening* magazine. Melinda hosted *The Plant Doctor* radio program for over twenty years as well as seven seasons of *Great Lakes Gardener* on PBS. She has written articles for *Better Homes and Gardens* and *Fine Gardening* magazines and was a columnist and contributing editor for *Backyard Living* magazine. Melinda has a master's degree in horticulture, is a certified arborist, and was a horticulture instructor with tenure. Melinda Myers' many accomplishments include starting the Master Gardener program in Milwaukee County, two Garden Media Awards (a Garden Globe Award for radio talent and a Quill and Trowel Award for her television work), both from the Garden Writers Association, the American Horticultural Society's B.Y. Morrison Communication Award for effective and inspirational communication, and she was the first woman inducted into the Wisconsin Green Industry Federation Hall of Fame.
