Marianne Barrucand, Achim Bednorz : Moorish Architecture (Architecture Design Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Moorish Architecture (Architecture Design Series):

A non-professional view By Mary I just have a love of architecture, for the art of it. This is a beautiful book. The photographs are breathtaking. The writing actually interested me in the history of an area I had never even thought about before. I would have liked to have seen some of the more humble, common buildings though. 6 of 9 people found the following review helpful.
