Anthea Kemp : Mr. Percy's Magic Greenhouse before purchasing it in order to gage whether or not it would be worth my time, and all praised Mr. Percy's Magic Greenhouse:

Quite magical, and Mr. Percy's dog is a hoot!0 of 0 people found the following review helpful. Our favorite children's bookBy Sam AshWe bought this book in Australia, and it was the favorite of both my sons for many years. The language is poetic and the story captivating. While I have donated most of my children's books to charity, I will not ever part with this one. If I ever have grandchildren, this book will be my ace in the hole. A grandparent who can read you a book this good, has to receive top ratings. And I will never forget Pumpkin, "who hated baths."If you enjoy the drama of reading to your children, this is the book for you. The language and illustrations are wonderful.

When Mr. Percy and his dog enter their greenhouse they travel, after a few magic words, to a jungle full of wild animals and exotic plants.
