Stu Campbell, Stu Campbell : Mulch It!: A Practical Guide to Using Mulch in the Garden and Landscape before purchasing it in order to gage whether or not it would be worth my time, and all praised Mulch It!: A Practical Guide to Using Mulch in the Garden and Landscape:

4 of 4 people found the following review helpful. Mulch itBy Tawny AbernathyVery helpful if you are looking for

ways to mulch. I live in Northern California where we are in the third year of drought with water restrictions at 15% now. Mulching is the best way to save what you have planted. This book tells you what kind of mulch works best for each areas and plants. 1 of 1 people found the following review helpful. Converted! By Jane Morris Despite being what I'd call a "seasoned" gardener, I've never been sold on the idea of mulch. That is, until now. Having read Stu Campbell's book *Mulch It!* I'm officially a convert, and should probably go on to read Ruth Stout's book next (*Gardening Without Work: For the Aging, the Busy, and the Indolent*)! The book covers everything you could possibly want to know on more than 50 mulching materials. It tells you the pros and cons to each one and gives you insight on things such as cost, weed control value, moisture retention, and decomposition rate. Campbell writes in such a way that the book is simple, engaging, and informative - a combination which held my attention and made the book an enjoyable read. And then there's the Quick Reference Chart! This incredibly handy guide makes access to mulch information even easier to learn, remember, or retrieve. If you have questions about mulch, are a skeptic like I was, or just want all the information in one place - this is the book for you. Especially if you want a garden that is "Rich looking, neat as a pin, and glowing with health." 0 of 0 people found the following review helpful. Five Stars By V.CONTISuper service, excellent price and packaging. Thank You very much...vc...

Weeding. Watering. Soil improvement. Frost and heat protection. Wouldn't it be wonderful if these gardening and landscaping chores could be simplified with one easy method? They can! This book is a reader's guide to the gardener's secret weapon for healthy, carefree and beautiful gardens and landscapes - mulch. Advice on every kind of mulch and on how to use mulches on everything from landscape plantings to vegetable gardens makes this the one book that gives readers everything they need to know to use mulch most effectively.

helpful handbook. Science News Many gardeners will appreciate the easy-to-use Quick Reference Chart as a handy overall guide to mulches and key mulch characteristics. American Horticulturist If you aren't sold on the value of mulch before reading Campbell's book, you will become so. Wisconsin State Farmer a compact, unassuming paperback It is definitely the most comprehensive book I've ever read on mulch. The Long Island Horticultural Society, Inc.
