Sorry I can only recommend this book to studentsBy Matthew's ManufacturingThis is a very "wordy" reference guide, and lacks enough specific information to be of use for practical application. Sorry I can only recommend this book to students.The seller processed and ship promptly! And the book was in exactly the condition specified.0 of 0 people found the following review helpful. giftBy DorisesIt didn't give

the exact code but I was told by the receiptant that he couldn't find the exact code either. Therefore it wasn't exactly what he wanted.0 of 0 people found the following review helpful. Five StarsBy Alfred MarinelliGood reference
