Sally Wasowski, Andy Wasowski : Native Landscaping From El Paso to L.A. before purchasing it in order to gage whether or not it would be worth my time, and all praised Native Landscaping From El Paso to L.A.:

0 of 0 people found the following review helpful. An interesting book for gardeners in the desert-type climatesBy SaraI gave this to my son for Christmas. At the time, he was living in El Paso and he was struggling to find interesting landscape options for that special climate. He loved the book and used it quite a lot. I recommend the book and for gardening ideas.8 of 8 people found the following review helpful. wonderful guide for specific garden areasBy Barbara J. WeedawagnerI really enjoyed this book. It helped me design and implement a hummingbird garden area. I now have a seating spot in the garden to enjoy the many H that come. I am buying another one of these great books for a friend who admired my garden. Thank you author Sally Wasowski0 of 0 people found the following review helpful. Great ideas for arid areasBy Ruth DuvallThis book has great ideas, illustrated with pictures, for water-sparing landscapes in the Southwest and California. The ideas are practical and the pictures are inspiring.

More so than any other region, the gardens of Arizona, Nevada, New Mexico, West Texas, and southern California must be designed for rain or shine and must meet the challenge of growing in dramatically rugged conditions. Whether you live in desert areas or in coastal chaparral, lifelong and new residents from El Paso to L.A. will be able to create a lively and magnificently beautiful garden that is at once drought-tolerant, environmentally friendly, low-maintenance, and affordable.

About the Author Sally Wasowski is a landscape designer and consultant based in Dallas, Texas, specializing in native plants and natural landscapes. She also teaches landscape design at Southern Methodist University in the adult education program. Andy Wasowski is a freelance writer and photographer.
