**Ryan O Williams : Natural Homemade Mosquito Repellent: How to make NATURAL HOMEMADE MOSQUITO REPELLENTS** before purchasing it in order to gage whether or not it would be worth my time, and all praised Natural Homemade Mosquito Repellent: How to make NATURAL HOMEMADE MOSQUITO REPELLENTS:

2 of 2 people found the following review helpful. I'm so glad I decided to get this book!By MandusI'm so glad I decided to get this book. I live in an area that is completely swarmed with mosquitoes and Ive been trying my best to

keep them at bay. But its a losing battle. Get one of them and five takes its place. The thing that made me decide to get this particular book was the fact that it took into consideration the fact that it is very important to make repellents that are natural and not filled with dangerous chemicals. Being very environmentally friendly, this was a huge selling point for me personally. Should you find yourself in a similar situation as me, my advice is that you get a copy of this book. It will keep the mosquitoes away, and keep you sane. 6 of 6 people found the following review helpful. Strange writing  
By Janine R. Starykowicz It might have good information, but is too hard to read to figure out. This is either a very bad translation or it is machine written, it is not natural English. I read it for free, do not pay for this. 1 of 1 people found the following review helpful. No complaints.  
By Jon No complaints.

How to make NATURAL HOMEMADE MOSQUITO REPELLENTS And Traps: Quick, Easy, Safe, Organic and Non-Toxic.
