Mark Duginske : New Complete Guide to Band Saws: Everything You Need to Know About the Most Important Saw in the Shop before purchasing it in order to gauge whether or not it would be worth my time, and all praised New Complete Guide to Band Saws: Everything You Need to Know About the Most Important Saw in the Shop:

0 of 0 people found the following review helpful. If you have a bandsaw, this book has everything you ever needed to know about bandsaws!. Terrific!By JulesA must have book for band saw users of all levels. A great reference book that I use when I am calibrating the blade. If I have a problem this book usually has the answer to my questions.0 of 0 people found the following review helpful. Five StarsBy L. FisherGreat common sense and instructions into the art.0

of 0 people found the following review helpful. Satisfied customer!By Glenn MartinI was able to reference this book to find the source and parts to rejuvenate my Beaver bandsaw. This book has clear illustrations and instructions.

This essential guide to woodworking's most versatile tool includes a thorough analysis on everything needed to know in order to purchase, setup, use, and maintain a band saw. This book details what woodworkers need to know before purchasing a saw--including the eight questions to ask before buying a used saw--along with topics such as a part-by-part overview of every component of the saw, techniques of set-up and alignment, choosing the right blade, and understanding hand positioning to provide any woodworker with the most complete guide to a band saw. Special sections are devoted to band saw accessories, how to deal with common problems, and how to maintain a band saw to keep it running effectively and efficiently for years.

""Right on the money . . . it's a shop manual you'll want to keep close at hand regardless of how seasoned a woodworker you become."" --Canadian Woodworking Magazine
About the AuthorMark Duginske is a fourth generation central Wisconsin woodworker. He makes his living as a woodworker, designer, writer, and inventor. He was formally a contributing editor to Fine Woodworking Magazine and now writes for a number of magazines. His work has appeared in Fine Woodworking, Fine Home Building, The Design Book, Americana, Chicago Magazine, Architectural Digest, Architectural Record, Woodsmith, Wood Shop News and Wood News. His restoration work in the Frank Lloyd Wright Home and Studio in Oak Park, Illinois has appeared on This Old House and the PBS Frank Lloyd Wright Special. He has 8 patents on woodworking tools and a number of patents pending. He is the author of 10 books. He has done two videos for the Taunton Press.
