**Charlie Nardozzi : New England Getting Started Garden Guide: Grow the Best Flowers, Shrubs, Trees, Vines Groundcovers - Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont (Garden Guides)**

before purchasing it in order to gauge whether or not it would be worth my time, and all praised New England Getting Started Garden Guide: Grow the Best Flowers, Shrubs, Trees, Vines Groundcovers - Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont (Garden Guides):

2 of 2 people found the following review helpful. I think Charlie Nardoizzi could have done a lot better. (Sorry By BofHope I think Charlie Nardoizzi could have done a lot better. (Sorry, Charlie.) On one page he says that a plant has some herbal use but he can't remember what it is. Well, look it up before publishing! On another page, there is a reference to a page in the book that was left with XXX's rather than the page number -- sloppy editing. And those two irritants were encountered in a cursory flip-through after purchasing -- who knows what other bummers are lurking there. Charlie Nardoizzi becomes a favorite for every VT gardener who listens to VPR, so of course I would buy the book, and indeed I've already found some valuable tips there (as well as the irritants). But really, send the book through another round of editing -- weed it out! -- and it could be something better than "just OK." 0 of 0 people found the following review helpful. Turned a hopeless case into a real gardener! By FamilyandFun My husband bought this for me as a gift and I was thrilled. I'm very intimidated by gardening and have had little to no success. This book has just the right amount of information and photos. Not overwhelming, but still extremely useful. I learned I had so many perennials right in my yard that I could actually take advantage of. I didn't spend a dollar on flowers. I divided what I already had with confidence from this book! I got a lot of positive feedback about my garden this year, but most importantly, I feel empowered and excited about gardening.... Something I wasn't expecting 0 of 0 people found the following review helpful. A must guide for new gardeners in MA By uncommon\_boston First garden in Plymouth, MA. Would have been helpless without this book. Wish I had a book like this in other places

The only garden guide with a plant selection as diverse as New England weather. To say that the climate in the northeastern United States is diverse would be an understatement. We've seen football games played in blizzards, been caught in jungle-like rain showers, and shaded ourselves from the humid summer rays. With ever-changing conditions, the thought of growing a healthy home garden can be daunting . . . but with such a varied landscape comes an equally varied mix of wonderful plants, including many native ones. You simply need to know which plants belong where, and in New England Getting Started Garden Guide, lifelong New Englander and Master Gardener Charlie Nardoizzi tells you exactly that. Featuring more than 150 plants across six states - Connecticut, Massachusetts, Maine, New Hampshire, Rhode Island, and Vermont - this straightforward manual makes it easy to research, choose, plant, and care for species handpicked exclusively for their ability to thrive in climates across New England. The plants within, organized alphabetically by plant type and common name, are each displayed with a full-color photograph, pronunciation guide, thorough planting and care instructions, and recommendations for companion plants that you can place nearby. This book is complete with a clever set of icons denoting sun/shade requirements and plant perks, and it even contains official color-coded USDA zone maps. From the splendor of fall-blooming asters to the beloved northeastern hydrangeas, New England Getting Started Garden Guide is your one-stop reference for growing plants that love living there as much as you do.

"Charlie Nardoizzi's "New England: Getting Started Garden Guide" may be one you want to keep for yourself. It's the sort of book you read and then want to keep near at hand to grab whenever you are adding plants or having problems with a plant already in your garden." - Portland Press-Herald About the Author Charlie Nardoizzi is a nationally recognized garden writer, speaker, and radio and television personality. He brings expert gardening information to home gardeners through radio, television, lectures, the Internet, and the printed page. Charlie delights in making gardening information simple, easy, fun, and accessible to everyone. Charlie has his own radio and television shows, is a well-known public speaker, and is the author of Cool Springs Press' Northeast Fruit Vegetable Gardening (2012), Vegetable Gardener's Journal and Magnet Gift Set (2014), New England Getting Started Garden Guide, and the upcoming Foodscaping (2015).
