Gives a good idea on how to upholster chairs, what tools to use, and what materials are used for a chair.0 of 0 people found the following review helpful. Cool bookBy lovesallNice for the beginner. Very detailed instructions. This book contains good clear pictures. Delivery time was good. I would really recommend this book to any one who wanted to do their own upholstering job. Thank you.Dee D.0 of 0 people found the following review helpful. Five StarsBy thejumpermanexcellent quality and information

In eye-capturing style, this essential new guide provides everything do-it-yourselfers, design students, and

professionals need to prepare and create beautifully upholstered furniture. Featuring 250 dazzling color photos, it provides the lowdown on scouting the antiques market for perfect furniture; choosing the right tools and materials; and selecting from today's innovative and vibrant fabrics including finishes and trimmings, which are often the key to making or breaking a piece. Novice upholsterers learn a range of basic and complex techniques, from stripping back and top stuffing to springing and making cushions. Eighteen easy-to-master projects bring rewarding results, including a striking Arts and Crafts Easy Chair, sumptuous red suede box stool, soft leather 60s G Plan Chair, sensuous shaped headboard, and elegant 19th-Century sofa. A Selection of the Homestyle Book Club.

From Booklist Once upon a time, the only ways to learn the finer points of upholstery were through an apprenticeship or a hands-on course (or two or three). Until British home-furnishings owner and creator Fulton and upholsterer Weston collaborated. Here, in a mere 176 pages, is the step-by-step information anyone needs to redo a sofa, a wing chair, even an ottoman--or to simply assess a vintage piece. The directions, though not succinct, leave little room for misinterpretation, starting with stripping back to making cushions, accompanied by color photographs, long captions, and cross-references. These basic instructions are followed by 18 projects, each posing its own set of challenges--a wing chair recovered in black-and-white stripes, a cowhide-upholstered ottoman, a dramatic fabric screen. The beginning chapters--on tools, materials, and fabrics--also live up to the top billing; charts, swatches, and numbered pictures more than adequately explain the what's what of seating.
