Sunset : New Western Garden Book before purchasing it in order to gage whether or not it would be worth my time, and all praised New Western Garden Book:

0 of 0 people found the following review helpful. Everything you need to know for your specific area...a great gift idea!By Vicki Barbariaeverything you ever would want to know....key for various areas so your not living on the east coast and have the instructions for Cali! This is a must have for all gardeners and a wonderful gift idea!0 of 0 people found the following review helpful. The Bible for GardenersBy Kathie MolesworthThis is the "Bible" of Gardening as far as I'm concerned.0 of 0 people found the following review helpful. still the bestBy InezIt is so much better than the newest New Western Garden Book, in which you can't find anything unless you are a botanist. This one has good lists of common names for plants and also seems to be more exhaustive. It is the one the nurseries use. I have had it in the past but can no longer find them. The only draw back is that that the paper is news print. I would still buy it again.

The Sunset new western garden book, with well over 2 million copies sold in previous editions, is referred to by professionals as the authority on Western gardening. The excyclopedia section describes over 6,000 plants, and includes at least one drawing for each of the more than 1,100 plant groups. A special 64 page section recommends the best plants for specific garden situations, with easy to use charts and many full color photographs. Another section shows you with over 200 illustrations how to take care of your garden. Maps of the West's 24 unique climate zones pinpoint your region so you can personalize the zoning information throughout the book. A reference book for

beginners and experts alike, the New Western Garden Book offers complete information for gardening in 11 states, California, Oregon, Washington, Arizona, Nevada, Idaho, Utah, Montana, Wyoming, Colorado, and New Mexico.
