Slight Compromise NeededBy Sunny SkiesThis book initially threw me off. It is so different than most decorating books I have. You know the ones; you flip through the pages and find gorgeous rooms and decor. You don't have to read a word to get the gist of the decorating style and decide which components you love and want to imitate.This book is different. I have never heard of this decorator, nor have I read or seen any of her other books. This is one you definitely have to read, but the text is in such big type that it does not seem daunting. I'm sure the big text helps to fill up pages, BUT I thought it was great for making the reading easy.Now I would say the first half of the book is talking, teaching and some of it is kind of new-agey, get in touch with your home's feelings kind of talk which makes me grin...but that's okay. I like a little humor in my life! For those who think I am kidding, page 65, starts with "Learn How Your House Wants to Live." I want to learn how I really want to live in MY house! LOLIt does have good information and kind of gets you thinking in a different way. I like how the author recommends you categorize your furniture and accessories into Love It, So-So or Leave It. It does explain that her "Leave It" category means it is out unless you will end up with

a naked room, sleeping on the floor or eating on the kitchen counter. So some "Leave It's" will have to wait to go out the door. Her recommendation is to make it tolerable by covering with a favorite tablecloth or with the most beautiful bed linens you can afford. I would give it a 3.5 star.1 of 1 people found the following review helpful. Five StarsBy Beth FisselQuick shipping. Book is awesome

Tips to make readers savvy decorators, using what they have, what they like, and how they live.Before-and-after photos show how 10 home owners worked with Jennings on room makeovers.Each room highlights no-compromise decorating principles to help do-it-yourselfers succeed with makeovers.Emphasizes personalized decorating rather than imitating designer or prepackaged styles.Down-to-earth advice and ideas on how to use color, fabrics, furnishings, and accessories.
