From Brand: Rodale Pr : Organic Gardener's Complete Guide to Vegetables and Fruits before purchasing it in order to gage whether or not it would be worth my time, and all praised Organic Gardener's Complete Guide to Vegetables and Fruits:

1 of 1 people found the following review helpful. Complet guide -- what more needs to be saidBy Richard C. AndersonA complete guide to vegetables and fruits. We enjoy having a garden in the summertime -- nothing tastes so good as tomatoes ripened on the vine, and sweet corn on the cob that is in your mounth within minutes of being picked!0 of 0 people found the following review helpful. Best Ever Gardening BookBy RoseloverI read the original book, (a long, long time ago), so I knew pretty much what was in this one. I purchased this new version for my younger brother who is into gardening. He loves it and refers to it often, as it is the only book to own if you really want to know about Organic Gradening. Can't say enough good things about the Rodale people, as they really get it, and have since they started, long before it became fashionable to garden organically.0 of 0 people found the following review helpful. Five StarsBy Denise CThe Standard...
