Great guide for decluttering and organizingBy Josephine (Josie) GroundsA great guide for those that are clutter prone and don't quite have the skills to do it on their own. The basics of the book touch on why decluttering and organizing are important in running a home. This book shows how to get into the correct mindset for cleaning your home daily. How to organize is covered, overview as well as room by room. And how to make plans to keep it all in check.0 of 1 people found the following review helpful. too small to be very usefulBy lovesmusicalsI didn't learn much from this book-it was small and so did not have as many hints as I had hoped.0 of 0 people found the following review helpful. Fab bookBy sallyann coleThis book was very useful for me. It offers some very helpful ideas that I'm going to use to keep my home and office work spaces from being referred to by others as 'black holes' and help me more easily retrieve the materials I need easily, yet live within the physical

limitations of the space available.

Proper home organization can be seen by many as one of the most daunting tasks any homemaker can face. In our modern lives, our time is taken up by a number of pursuits that all keep us away from proper home organization, cleaning, and maintenance. Unlike 60 years ago when a mother stayed at home, today most families require that both partners work. With kids, school runs, extramural activities, and other challenges, we have little time to worry about our homes. We are happy to spend a little time here and there cleaning and organizing. Unfortunately, this often results in homes that slowly but surely become filled with clutter and stuff we do not need. This piles up everywhere, and unless dealt with, can cause a number of problems. With this audiobook, I'll help you understand why an unorganized, clutter-filled home is not ideal. Once you know the reasons why you should keep your home organized and clutter-free, it is far easier to get into gear and do so. My objective is to provide you with plans that you can use or adapt and change into something that works for you. Here's a preview of what's inside: Organizing and Decluttering - Why Is It Necessary?
