Jack Ingels : Ornamental Horticulture: Science, Operations Management,3rd ed before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ornamental Horticulture: Science, Operations Management,3rd ed:

0 of 0 people found the following review helpful. Five Stars By Niana F. Perfect 0 of 0 people found the following review helpful. Five Stars By No Publicity Great for the class I needed it for, in amazing condition 0 of 0 people found the following review helpful. Three Stars By Customer Standard text book.

This comprehensive text introduces students to both the art and science of ornamental horticulture. The book includes equal coverage of such diverse topics as science, crop production, craftsmanship, and business management skills. From this balanced perspective, the student gains an appreciation for the value of the diverse segments of ornamental horticulture. In addition, the text offers students a realistic view of the business skills required to be successful in ornamental horticulture. Such pedagogical features as extensive illustrations, objectives, and review questions help students monitor their progress. This unique text gives students a well-rounded view of both the art and science of

ornamental horticulture to prepare them for careers in this exciting industry.

About the Author Jack E. Ingels is a distinguished professor in the department of plant science at the State University of New York at Cobleskill. He is a member of the Associated Landscape Contractors of America and was named by Lawn and Landscape magazine one of the top ten landscape educators in America. Mr. Ingles has written numerous publications about ornamental horticulture.
