Linda Abbott Trapp : Ornamental Plants and Flowers of Tropical Mexico before purchasing it in order to gage whether or not it would be worth my time, and all praised Ornamental Plants and Flowers of Tropical Mexico:

2 of 2 people found the following review helpful. Ornamental Plants flowers of Tropical Mexico By jasmine Gardening books on growing plants on the west coast of Mexico seem to be few and far between. Whilst this isn't a "how to" book it does picture, describe and give the horticultural and common names of plants seen in the Puerto Vallarta area and also gives cultivation tips. It will be a great help in purchasing plants and planning my new garden there. 0 of 0 people found the following review helpful. Great book! Excellent resource for anyone gardening in the ... By Love the rockies Great book! Excellent resource for anyone gardening in the tropics. 1 of 1 people found the following review helpful. outstanding book , but sheets fall off the book By allanif Great, outstanding book with excellent pictures and

deep, informative text. Unfortunately, the book goes apart and then is no book at all :-)

Identification and cultivation guide, fully illustrated with hundreds of color photographs. Includes common/scientific names, use/care information, cultivation/propagation tips, flowering habit, and history/little-known facts for over 100 of the most beautiful and interesting plants in areas frequented by visitors.
