This is a great book for that with lots of information to soak in. Enjoying my read so far! 0 of 0 people found the following review helpful. A book for all gardeners in zone 10 By Bonnie M pages Great book. Fantastic price 0 of 0 people found the following review

helpful. Useless otherwise. Just skims the surface of tropical shrubsBy Kindle CustomerI guess if you know absolutely nothing about plants then this is the book for you.Useless otherwise.Just skims the surface of tropical shrubs.

For gardeners lucky enough to live in the subtropical and tropical zones, here are 83 shrubs they can count on to display beautiful flowers and/or colorful, interesting leaves. Stunning color photos and practical advice make this book an inspiration as well as a how-to manual for those who want their gardens to put on a tropical show throughout the year. Learn how to use shrubs in garden design for hedges, borders, screens, bank covers, mass plantings, containers, as well as bird and butterfly attractors. you'll also learn how to maintain a healthy garden. In her straightforward style, Amanda Jarrett covers the basics of planting, watering, fertilizing, pruning, mulching, and controlling insects and diseases. Just follow Amanda's common-sense advice, and your garden will blossom for years to come.
