10 of 10 people found the following review helpful. Awesome guide - Excellent information!!! By Daisyville I just bought this book a few days ago and it's already dog-eared! I am so thrilled! The format is superb, the information is right on and it's detailed but not overwhelming or overly technical. Great photos, too! I can't say enough about this book. I HIGHLY recommend it to anyone even if you don't have a deck, patio or balcony! The info can work for backyards, front yards, whatever!!! Go get it! It's worth the [money].
