**Ortho Books : Ortho's All About Roofing Siding Basics (Ortho's All about)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ortho's All About Roofing Siding Basics (Ortho's All about):

0 of 0 people found the following review helpful. Five StarsBy Customergreat buy0 of 0 people found the following review helpful. About TilingBy PeggyVery helpful book not only for the amature but also a good refresher for the occasional pro, or the pro going into something new.0 of 2 people found the following review helpful. Tiling basics book...By nooneI haven't actually read the book, but a quick glance through makes me think the material may be a bit dated. The tile designs in the illustrations, at least, look a bit out of fashion. That said, the how-to aspect of this book may be great - I won't know until I actually read it! I've found most of the Ortho books to be good intros to home improvement topics, so I'm still hopeful!

Covers selection and installation of roofing and siding as well as repair and maintenance of siding, gutters, and downspouts.
