**Ortho Books : Ortho's Complete Guide to Vegetables** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ortho's Complete Guide to Vegetables:

More than 200 photographs and illustrations fill the pages of this comprehensive guide to the planting, growing and harvesting of all common vegetables.Organized by type of vegetable with specific chapters on garden pests, preparation and construction.Bridges the gap between gardening books and cookbooks with recipes, nutritional information, and hints for vegetable preparation.Appeals to people who like to try new vegetables but dont know how to prepare them.Seed and plant sources listed in an appendix for gardeners who cant find plants locally.
