**Steve Cory : Outdoor Wood Projects: 24 Projects You Can Build in a Weekend** before purchasing it in order to gage whether or not it would be worth my time, and all praised Outdoor Wood Projects: 24 Projects You Can Build in a Weekend:

0 of 0 people found the following review helpful. Five StarsBy Bill MorrowNice well written book. Very thorough instructions. Useful projects.6 of 6 people found the following review helpful. There is not much new hereBy caleone01Which is not to say it is 'bad,' only to say that if you want to make something innovative or very interesting, you probably should look elsewhere or design it yourself. Still, it is a good book for a slightly advanced beginner, or someone who is not confident in designing their own project. The strawberry pyramid gets the three stars here--that one is pretty clever, and a design I'll be 'riffing' on--the clarity of illustration and instruction gets the fourth.1 of 1 people found the following review helpful. Overall a good purchaseBy R. EsbaumMy son in law (who enjoys woodworking) likes the projects in the book, though he always adds his own modifications and doesn't follow the

processes exactly, he says the basics are decent for any carpenter.

Create something to show for your weekend! If you're looking for projects that you can start and finish in just a weekend's time, look no further than *Outdoor Wood Projects*. This collection of 24 projects for the backyard and garden can be completed with basic DIY tooling, inexpensive materials, and beginner skills. Perfect for basic woodworkers and just right for anyone more experienced who wants a filler project. Put your stamp on your outdoor space. Why compromise with mass merchandise when you can make your own? With *Outdoor Wood Projects* you can create exactly what you need. Though quick and inexpensive to build, the projects in this collection will enhance your garden and backyard for years to come, including: a window box with corbels an Adirondack chair and ottoman a strawberry pyramid a compost bin a trellis with cutouts and many more! Special sections and good ideas. *Outdoor Wood Projects* includes a whole chapter devoted to projects built with bamboo. And a number of the projects are constructed from reclaimed or recycled wood (such as an Adirondack chair made from wood pallets). We make it easy to get the project done! Easy-to-follow directions, photos, and illustrations take you step by step through each project. And materials, tools, and techniques are covered so you can enjoy a successful weekend.

**About the Author** Chicago-based author Steve Cory is a freelance writer and photographer who specializes in how-to projects. He has written extensively for *Sunset/Lowe's*, *Stanley*, *Creative Homeowner*, *Meredith/Home Depot*, and others. Cory is the author of *Taunton's Outdoor Wood Projects* (2014), *Building Kitchen Cabinets and Bathroom Vanities* (2015), and *Stanley A Homeowner's Guide to Trim* (2015).
