Francesc Zamora Mola : Outside Living: Terraces, Balconies, Roof Decks, Courtyards, Pocket Gardens, and Other Small Outdoor Spaces before purchasing it in order to gauge whether or not it would be worth my time, and all praised Outside Living: Terraces, Balconies, Roof Decks, Courtyards, Pocket Gardens, and Other Small Outdoor Spaces:

5 of 5 people found the following review helpful. this is a beautifully illustrated book with lots of stunning photos of landscaped ...By Nini9erYes, this is a beautifully illustrated book with lots of stunning photos of landscaped backyards. However, I bought the book thinking it was for small spaces, as per the subheading 'terraces, balconies, roof decks ...'. The photos shown by are the only few with smaller areas in the book. This book mainly contains architecture designed modern houses with LARGE backyards from around the world. Not small by my definition.0 of 0 people found the following review helpful. Inspiring, and well illustratedBy DanielaA very nice survey of contemporary projects that incorporate outdoor spaces. The projects featured emphasize a fluid connection between

indoors and outdoors. Each project includes a short description, many of which provide good insight into the design process. Photos are good quality (though there could have been more) and many of the projects include fully labeled plans as well as other drawings. The projects come from many parts of the world (sadly, none from Canada, especially Vancouver). Yes, some of the projects are very large 'dream homes' that don't really focus on 'small outdoor spaces', but many of the projects do feature smaller spaces. The focus sometimes veered too much toward architecture rather than landscape design, but the architectural insights were still valuable. Overall, an inspiring collection of well-described projects and a great source of ideas.

Anyone looking for design ideas for patios, terraces, and other compact outdoor spaces will find this inspirational sourcebook invaluable, whether starting afresh or fine-tuning an existing design. This is the ultimate resource for innovative terrace, roof garden, patio, and balcony design ideas for outdoor spaces of all shapes and sizes. Featured inside this lavishly illustrated sourcebook are 600 full-color photographs and diagrams of uniquely beautiful projects from around the world, by well-known and up-and-coming garden and landscape designers. They reveal how to create exterior spaces in a variety of styles, from a classic urban roof garden with romantic garden plantings to clean, modern, and innovative spaces. Traditional as well as cutting-edge materials that are practical, cost-effective, and environmentally friendly are featured throughout. Most importantly, the design ideas featured can easily be tailored to the unique tastes and individual needs of a particular site or project. Truly an inspirational sourcebook for anyone aspiring to create or update an outdoor room, the book includes designs from all parts of the world—the United States, Canada, England, Japan, and France, among other countries—by some of the very best contemporary garden designers and landscape architects at work today. This book is destined to become a perennial resource.

About the Author Francesc Zamora Mola is the author of numerous architecture and interior design books, including *The Sourcebook of Contemporary Urban Design*, *150 Best New Apartment Ideas*, and *The Art of Landscape Architecture*. Formerly an architect in San Francisco, he currently lives and works in Barcelona.
