William McElroy : Painter's Handbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Painter's Handbook:

0 of 0 people found the following review helpful. The book has helpful content and a lot of technical ...By scott visserThe book has helpful content and a lot of technical content that I would not use. Black and white pictures rather than color seems odd for a painting book. The binder of the book broke within the first twenty minutes of use and the first fifty pages fell out. Hopefully, this is not the norm. Still, the material is worth the work of putting it in the three hole binder and carrying with me.0 of 0 people found the following review helpful. Recommend to those new to the field as well as ...By TmoThis is an older handbook but there is still a lot of solid information to be found. Recommend to those new to the field as well as those who can always learn something new.0 of 0 people found the following review helpful. Four StarsBy CatherineIt was very helpful

Loaded with how-to information you'll use every day to get professional results on any painting job: the best way to prepare a surface for painting or repainting; selecting and using the right materials and tools (including airless spray); tips for repainting kitchens, bathrooms, cabinets, eaves and porches; how to match and blend colors; why coatings fail and what to do about it. Includes how to start a painting business, including the paperwork you'll need to keep. Lists 30 profitable painting specialty jobs that offer you profitable business opportunities. Also includes how to estimate prices, sell yourself, and present bids.
