**Donna Dewberry : Painting Garden Decor with Donna Dewberry (Decorative Painting)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Painting Garden Decor with Donna Dewberry (Decorative Painting):

1 of 1 people found the following review helpful. one strokeBy loverI love all the one stroke books and no library would be complete without this one. I love outdoor furniture and got many great ideas from this book, which isn't surprising considering it is one stroke!1 of 1 people found the following review helpful. good InformationBy Caren BlabagnoI enjoyed her illustrations on her painting techniques. Although I will but my own touches on my own things its nice to have a reference.1 of 2 people found the following review helpful. Joyful AnnoyanceBy LexThis book is WONDERFUL! I can't tell you how much it has annoyed my mother to no end! :D \*Two Thumbs Up\* I have painted flowers, birds, bees, and all manner of wildlife on every square inch of our home.Heck I even tried painting the old

Cathode Ray Tube T.V. screen we had (no dice on account of Dad wouldn't be able to watch his Price Is Right in the morning). When I started in on shaving to get ready for paint Mom took the books away. All I can say is that for the short amount of time I had this book (and many others like it) my life was GREAT, and now our house shows the hard work I have put into it. Heck the suggestions in this even helped me paint that darn The Creation of Adam by Michelangelo that I'd been wanting to put on the Bathroom ceiling my whole life. And I even managed a portrait of Jesus with a Glowing Halo and all right across from the can. Now one can sit and contemplate the deepest meanings in life while they are not busy. Just looking into those eyes every time I sit down has given me revelations of a Biblical Scale not unlike Doc Brown (From Back to the Future). Like Doc Brown I nearly hit my head once realizing the meaning to life itself. (Lots of fiber) And that the world is not hopeless (eat prunes and other such laxatives), if we all share what we have. I plan on sharing my newly acquired painting skills on any open and semi clean surface the Second I get my books back. (I have searched all the hiding places in the house and have yet to find the books. I'm getting a bit worried now and hope my Mom has not thrown them out.) Overall the instructions are truly wonderful and take you through them step by step. (This helps if your painting in an awkward space, such as the lamp shades, the handles of the refrigerator doors, and even the grout in the bathroom floor. ) The book came in good condition, and I'm quite pleased overall. I'd give this a good \*Two Thumbs Up\* :D
