Elizabeth Bublitz : Pawfriendly Landscapes: How to Share the Turf When Your Backyard Belongs to Barney before purchasing it in order to gage whether or not it would be worth my time, and all praised Pawfriendly Landscapes: How to Share the Turf When Your Backyard Belongs to Barney:

6 of 6 people found the following review helpful. some good tips, nothing particularly illuminating, and very unprofessionally done.By chaoran22I'm not kidding when I say that I could have put together a more professional looking book with my little point and shoot camera and a laser printer. These pages look no different from what you can print from a home laser printer and in fact, many of the pictures are so fuzzy that they are far inferior to what an average person can put together. I was really surprised by how unprofessional this book looked.That being said, there

were a few good tips that a beginner home landscaper would find helpful. It's nothing that some quality time spent on the internet would not unearth for you by googling and reading pet community forums, but at the same time, it is nice to have all this information in one place and not to have to spend a few hours looking for it online. But none of this is very helpful for more experienced landscapers looking for pet solutions - it is unlikely that a more than beginner landscaper would find anything they didn't already know or try in this book. Also, it does include a very small (1-2 pages), and not very helpful section on cats. 0 of 1 people found the following review helpful. Great Read! By Elly B. This book was fun and easy to read! I wish it had a few more pictures in it but other than that - I really loved the ideas, consideration toward dogs and achieving a beautiful yard!

"Our new puppy ate our yard." "Help! Our terrier cut himself on the edging." "My cat wants `outside.' How do I keep her safe?" You are not alone in your frustration and your desire to create a beautiful, pawfriendly yard that makes animals and humans happy and safe. Let us show you: ~How to protect your pets from toxic houseplants and other hazards. ~How to keep your pups from "digging to China," and ~Great tips on how to keep your landscape living...and livable. Our approach to pawfriendly backyard space is inexpensive, attractive, and best of all, easy to install!
