It also gives various scheme options of how you would want to color each room. 23 of 24 people found the following review helpful. Brilliant Book! By A Customer I am one of those people who love home decorating, design magazines, TV shows and books. I always seem to get more helpful information and ideas from the magazines than I do from the books that I've read. But then I read this book. This book is not just gorgeous photographs, but it is actually packed with very practical content that I have been able to use with huge success. I feel like I can confidently choose paint colors and put together a room. My rooms look amazing and I am very

gratified. The colors feel very rich, and are not old fashioned or boring. While reading the book, I was constantly having "ahaa" experiences. I felt empowered to go for it. I felt like, "Now I get it. I can do this". I tend to be very picky about decorating. I don't want any loose ends, or lingering doubts about how I decorated a room, or whether the paint color is right or not. Using this book allowed me to feel as if I had "nailed it" in every room that I redid. I love it and recommend it highly! I bought five copies and have already given all away to friends who have bought houses or moved recently...8 of 9 people found the following review helpful. This book empowered me to take greater risks with color.

Anyone who looks at this book will see immediately how beautiful it is. But, for me, this book is much more. I feel that it elevates this genre of book to a new level. The rooms, the paint colors, the text and engaging quotes are a pleasure to the senses. It is clearly well designed and the color is exceptional. But even more importantly, this book empowered me to take greater risks with color. I do not see myself as a particularly creative person. Fear of choosing the wrong paint colors has been enough to keep me from incorporating my favorite colors into my home. I see fantastic color in friends homes and wish that my own home looked as interesting with the use of color. Reading and looking through this book gave me a heightened sense of my own color preferences and even my own sense of creativity. I have taken the leap into the world of color and am deeply satisfied with the results in my home and within myself. Without sounding too corny, I believe that this book changed me. I grew as a person and have acquired a new appreciation for what color has brought to my life.

Homeowners spend hours staring at colour swatches at their local paint stores. How can they make sure that colours look great on a tiny square of paper will also look great on the walls at home? Designed for every home decorator who's never painted before - and for those who swore they'd never paint again - this is a guide to choosing the best colour scheme for every room, the first time, every time. The author unveils 40 colour recipes, all chosen from top manufacturers and tested in the real homes of real clients. She covers rooms painted bright, neutral and everywhere in-between and provides tools and tips for getting exactly the look you want. The title also includes detailed information on furnishing and accessorizing the home. Like having a professional paint consultant in your home, this user-friendly guide should make anyone an instant colour expert - and every room a showcase by offering simple, no-nonsense decorating guidelines that should help you reevaluate, reorganize and revitalize every room in your home.
