Definitely A Must Have!!!By Greg SpeichertWhen I first got my review copy of this book, I thought, not another coffee table book full of pretty pictures and drivel. But was I in for a surprise. Very few garden books have the incredible photography of this book. Combine that with great articles on the plants, seasoned plants and people and I was very happy.I am glad to have a beautiful book with equally insightful information on the plants. As Beth Chatto speaks about Sarracenias in the introduction, I may not be able to or want to grow the plant, but the pictures and information let me dream.This book was very well done and is a great gift for any gardener, even the arm chair kind.

This is a new breed of plant book, written by a team of leading plant experts, botanists, nursery owners and plant hunters.

About the AuthorRosie Atkins spent 15 years working for the Sunday Times (London) before becoming a freelance garden writer for various national newspapers. In 1987 she and her family spent a year traveling around the world,

which furthered her interest in how other people garden. In 1993 she launched Gardens Illustrated and was the editor of the magazine for eight years. She left in 2001 to become curator of the famous Chelsea Physic Garden in London.
