The subject of Permaculture is defined in a lot of different ways in this book but still comes out the same I guess... Still an okay book just the same.0 of 0 people found the following review helpful. I was disappointed. There really was very little informationBy Michael P.I was disappointed. There really was very little information. The whole book was vague. I suppose if you knew absolutely nothing of permaculture there might have been a little info.0 of 0 people found the following review helpful. InformativeBy Customergreat read
