0 of 0 people found the following review helpful. Poor quality in instruction for beginnersBy RG ConsumerPoorly put together. Atrocious grammar, punctuation, mis-spelling, poor illustrations and some even referenced, but not shown. The instructions were too general and lacking sufficient description for the beginner, which it was designed for.1 of 1 people found the following review helpful. Not very usefulBy Pep TwitThe extreme grammatical spelling errors made this almost unreadable. There was no ending, the book just stopped. The beginning of the book contained some random text about exercising that had nothing to do with the subject as well as large black boxes. All this made me wonder if perhaps the book file I received was corrupted. If the file is corrupted, needs to correct it and then perhaps it could be useful. As is now, I wasn't able to take away much from reading the book, it wasn't worth the free download.1 of 1 people found the following review helpful. Nothing but a poorly spelled infomercial.By JoefaceThe information given was basic and the editing was horrible. Here is the readers digest version. If you want to pick locks, buy his lock pick set and buy his bump key set.
