Classic Appalachian TreasureBy RogerEducator Eliot Wigginton's Rabun Co., GA high school students gathered first-hand accounts of Appalachian pioneer culture just before these living treasuries passed forever beyond our reach. You'll gain an appreciation for a hearty people who've lived close to

the earth, learning what Mother Nature was willing to teach, passing those mysteries down by word-of-mouth, generation-to-generation . . . fascinating stuff, it'll enrich your life.0 of 0 people found the following review helpful. some useful stuff, worth a readBy Kindle CustomerThis series gets a little tired; some useful stuff, worth a read.0 of 0 people found the following review helpful. Great book!By scottyjSo much historical information in this book. I'm an avid gardener and I thoroughly enjoyed reading the information presented. The people interviewed reminded me of my grandparents here in the Ozarks. Great reading!

An Appalachian farmers almanac, *Planting by the Signs* is a valuable resource for the gardener looking for time-honored tips for clearing land and growing vegetables from the people who originally pioneered the art through hard work (and a little bit of luck). In the spirit of the Foxfire Americana Library, this entry also contains a collection of gardening-related folklore, including signs to tell that winter is coming and a guide to planting successfully according to the stars. Foxfire has brought the philosophy of simple living to hundreds of thousands of readers, teaching creative self-sufficiency and preserving the stories, crafts, and customs of Appalachia. Inspiring and practical, this classic series has become an American institution. In July 2016, Vintage Shorts celebrates Foxfire's 50th Anniversary.
