Beverly Hill : Plants: How to Start an Interior Plantscaping Business (plants, plantscaping, growing plants, business, vegetables, flowers, herbs) before purchasing it in order to gage whether or not it would be worth my time, and all praised Plants: How to Start an Interior Plantscaping Business (plants, plantscaping, growing plants, business, vegetables, flowers, herbs):

0 of 0 people found the following review helpful. Not worth ANY money. Very rudimentary information, all ...By JoyNot worth ANY money. Very rudimentary information, all of which is available from just about any plantscape website. So mad that I didn't look over it BEFORE I highlighted something. It is poorly edited for print as well. 0 of 0 people found the following review helpful. Great Intro! By dynamical appreciate the smart, to the point way the author presents the information on the plantscaping world. Although brief, it covers all the necessary topics one will encounter in this competitive industry.

This book contains proven steps and strategies on how to take advantage of your green thumb, with rewards of financial freedom in mind. Plants have been environmental enhancers since time immemorial. They are one of humans primary connections to Mother Nature. At present, they have also taken the role as stress relievers, worthwhile hobby, and beginning in the 1970s, as promising business. Plantscaping, or the art of placing and arranging plants in spaces for aesthetic and division enhancement purposes, is an essential component of design and architecture nowadays, not only in residential homes, but also in commercial and institutional spaces. Malls, offices, and even hospitals have indoor plantscaping as an integral part of their floor plans and interior designs. Indeed, how pretty it would be if there are plants and trees to see, wherever you would be! In this book, readers will learn the basics of plantscaping business, from the plant species to types of designs to the rudiments of starting the biz. Included in the book are pictures of sample plant arrangements, as well as the plants themselves, that will make readers familiar and more appreciative of the art and biz of plantscaping. The right tools to start the business are also emphasized in one whole chapter. This book might be too short for you, but the essentials are provided in the most concise, straightforward, and reader-friendly manner possible!

About the Author Beverly Hill is a sociologist. She is the CEO of C.E.F Associates and formerly served as head of department of sociology in Premier Natural Resources Inc. A graduate of Nelson High School also graduated from the University of Toronto with a B.A in economics and finance and holds an M.S from Cambridge University in public relations and PhD in sociology. She has written many articles on human equality, animal rights, environmental issues, personal development and peace keeping in different newspapers. She has also appeared in many magazines and is frequently interviewed for articles on family, race, socioeconomic status, and how to survive in your environment. She has also worked on the importance of health of relationship between parents and children. Her book 'The Middle Child' focuses on the importance of the attention given to the children and what to expect from them. This book helps parents understand their children. In addition to these works she is also the author of 'Surviving Alone ' which is about her own childhood growing up; she writes about her family struggles living on a low income budget and growing her own food to survive. C.E.F Associates formed in 1999 in Idaho, USA she worked both nationally and internationally. This is a consulting company which has clients all over the world. Ms. Hill the CEO of the company is the main reason of the huge client base because of her servings in foreign countries.
