**John Howard Garrett : Plants of the Metroplex: Newly Revised Edition** before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Plants of the Metroplex: Newly Revised Edition*:

0 of 0 people found the following review helpful. The Bible of North Texas Horticulture By Charles Ingram Once again something out of stock locally. This is a Metroplex must have classic. Bought it for a new neighbor who moved in from outside Texas. Just wanted to make sure they knew what would and wouldn't grow here. This is the Bible written by the God of North Texas Horticulture. Ours was published in 1975. A must have here. 0 of 0 people found the following review helpful. Wife's Choice By Old Buddy Ordered this book for my wife. She loves it. It covers just about any plant/tree subject for the metroplex. 0 of 0 people found the following review helpful. Must have in DFW By M. Williams Perfect reference for DFW area. It even has native plants marked.

Covering Texas and beyond, *Plants of the Metroplex* is the only Texas book available giving practical landscape advice from a landscape architect's point of view. Howard Garrett uses his years of experience as a gardener, landscape contractor, maintenance contractor, and landscape architect to give you clear-cut, money-saving advice on the proper selection, installation, and maintenance of landscape plant material for the Dallas-Fort Worth Metroplex and beyond. Garrett also explains his organic approach, "The Natural Way," which gives gardeners greater success with lower costs and without the risks of synthetic fertilizers and pesticides. All of this information has been revised and updated from Garrett's popular *Plants of the Metroplex III*. J. Howard Garrett has converted several commercial projects to organic programs. They include Frito-Lay National Headquarters in Plano, Johnson and Johnson Medical in Arlington, and Collin County Community College in Plano.

From the Back Cover  
Now expanded to cover Texas and beyond, *Plants of the Metroplex* is the only Texas book available giving practical landscape advice from a landscape architect's point of view. Howard Garrett uses his years of experience as a gardener, landscape contractor, maintenance contractor, and landscape architect to give you clear-cut, money-saving advice on the proper selection, installation, and maintenance of landscape plant material for the Metroplex and beyond. Garrett also explains his organic approach, "The Natural Way", which gives gardeners greater success with lower costs and without the risks of synthetic fertilizers and pesticides. About the Author  
A 1969 graduate of Texas Tech University, Garrett is currently a consultant on organic projects and products, host of "The Natural Way" radio gardening show on WBAP 820, and columnist for the Dallas Morning News.
