**Philip Swindells : Popular Pond Plants (Interpet Handbooks)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Popular Pond Plants (Interpet Handbooks):

0 of 0 people found the following review helpful. very good beginners reference bookBy pba very nice, well organized and prepared reference book. (for its size, obviously -- it isn't an encyclopedia.)the first half of the book reviews basic plant families, general potting requirements and techniques, and maintenance and basic reproduction methods.the second half lists several dozen species and varieties, organized by family, and for each species provides a paragraph

description of the plant and its care with a detailed sketch. this section also includes photographs of many of these plants.

How to use and maintain a wide range of plants in and around your garden pond, including water lilies, aquatics, marginals, and bog plants. The garden industry is booming, and this exceptionally illustrated full-color book is the perfect resource for budding or experienced pondscapers. This book features all the popular types of pond plants. Specially commissioned step-by-step photos show planting techniques and maintenance, propagation, plus how to recognize and treat common plant pests and diseases.

From the PublisherThe garden industry is booming, and this exceptionally illustrated full-color book is the perfect resource for budding or experienced pondscapers.From the Back CoverA colourful and practical guide to choosing and using a wide range of pond plants. Specially commissioned step-by-step photographs show planting techniques, essential maintenance, propagation, plus how to recognise and treat common plant pests and diseases. All the popular types of pond plants are featured, including submerged oxygenators, deepwater aquatics, floating plants, waterlilies of all sizes and colours, marginals, plus a selection of moisture-loving bog garden plants.About the AuthorPhilip Swindell has more than 30 years of practical professional horticultural experience and now acts as a consultant specializing in the conservation, restoration and management of historic gardens, particularly water gardens.
